FY2025 Outlook

For fiscal year 2025, management expects total revenue in the range of \$1.95B to \$2.05B, representing growth of 13% to 19% over FY2024. Operating margin is expected to expand another 100 to 150 basis points as the company scales Platform Services and completes the integration of the Atlantic business.

Capital allocation priorities remain unchanged: (1) reinvest in the business, (2) pursue tuck-in acquisitions, and (3) return excess cash to shareholders via dividends and buybacks. The board approved a 12% increase to the quarterly dividend, effective Q1 FY2025.
