Page 4 -- Internal link (should NOT appear as a URL)

See page 1 for details.

Page 5 -- Link embedded inside a long paragraph

This page contains a substantial amount of body text so that the chunker's recursive character splitter is forced to divide this page into more than one chunk. Somewhere in the middle of this text there is a reference to our detailed methodology document, which is linked here for convenience and further reading by anyone who wants the complete calculation behind the headline figures reported elsewhere in this presentation and in the accompanying annual filing.
